PROFILE

PharmD student with an interdisciplinary research interest spanning healthcare, *biomedical signalling, cancer biology, & computational approaches*. Actively building research and technical skills through academic projects, review writing, and foundational programming. Preparing for GATE (XL & BT) with long-term goals of *pursuing research training at IITs, IISc or International Universities in interdisciplinary domains*.

EDUCATION

Doctor of Pharmacy (Pharm.D), Ongoing (3rdYear)

QIS Institution, Andhra Pradesh, India

Affiliated with Jawaharlal Nehru Technological University Kakinada (JNTUK) & Rajiv Gandhi Institute of Medical Sciences (RIMS)

Expected Graduation 2030

VKR College

[2021 - 2023]

Intermediate - PCB Stream

GPA : 9.0 / 90.2%

RESEARCH INTERESTS

- Computational Genomics & Bioinformatics
- AI/ML for Biological & Clinical Data
- CRISPR Data Analysis & Functional Genomics
- Cancer Biology, Genomics, Systems Biology
- Computational Modelling of Biological Systems

TECH SKILLS

- Python (Basic - Intermediate)
- Java (Basic)
- SQL (Learning)
- Machine Learning (Foundational)
- Streamlit

LANGUAGES

- English (Working Proficiency)
- Hindi (Working Proficiency)
- German A1 - (CEFR Level)

PROJECTS & RESEARCH

AI-Assisted Healthcare Utility Website (2025)

Website Link : <https://rahulkota-healthcare-app-2026.streamlit.app/>

Designed & deployed educational healthcare utility integrating BMI assessment, adult, pediatric dose calculations, and structured drug information with clean Interface

Academic Research Project IIT BHU (Guided Mentorship)

Currently Working on literature-based exploratory research related to “*miRNA incorporated nanocarrier delivery in treatment of triple-negative breast cancer (TNBC)*” under guidance of PhD scholar at **IIT BHU**.

Formulation Research Proposal – Nootropic Chocolate Candy

Proposed a chocolate-based nutraceutical formulation by applying formulation science principles to ingredient selection and delivery-system design

Review Article – Marine-Derived Extracellular Vesicles as Nanocarriers

First author on a literature-based review exploring marine-derived extracellular vesicles as nanocarrier delivery systems, under the guidance of Dr. B. Revathi.

CERTIFICATIONS & EXPERIENCE

Secured First Place in Poster Presentation Titled “*Pharmacists The Frontline Divers of Vaccination*” During **National Pharmacy Week - 2025**, Under **SCRMP (Gujarat - Chapter)**

Completed 10-Day **GIAN Course at IIT Indore** Titled “*The Exciting Landscape of Precision Medicines & Next-Generation Deep Medicines*”, Conducted in Collaboration With **Purdue University, USA**

Attended 5th Edition of **HEALTH CARE SUMMIT 2025** Held on 13th & 14th June at **IISc Bangalore**

NPTEL – Mathematical Foundations for Machine Learning (IISc-NITK)
